

Attunement with Sacred Sound

WORKSHOP INTENSIVE FOR SUBTLE ENERGY AND SOUND HEALERS

*Exploring Sacred Sound Tools—Embracing Radiant Cocreation
Nurturing for the Healer*

Facilitated by Anthony Palombo, DC, certified Attunement Practitioner/Teacher and author of Sacred Anatomy, with the Sunrise Attunement Team. Dr. Palombo has been exploring the mystical aspects of sound and attunement as an alternative health practitioner and musician for over three decades. His playful, adventurous style fosters an atmosphere for cocreative discovery and sheer magic.

2009 SCHEDULE

MARCH 12-15 / JUNE 18-21

Let us take up our tools of divine technology and together expand our healing service through Attunement with Sacred Sound.

We will explore the use of sound as a sacred tool in attunement, a process by which the physical body is brought into a state of harmony, balance and union with indwelling Spirit. The attunement service with which we will be working, as well as teaching, was introduced in the 1930s by Lloyd Meeker (Uranda), an enlightened spiritual teacher. His work brought to light the relationship between Spirit, specifically the seven-fold Spirit of Love, and the seven ductless glands of the endocrine system, bringing into the field of subtle energy work a missing piece the West had to offer as a complement to the Eastern tradition of the seven chakras.

We will work with sound as a medium for the conveyance of Spirit into the world of form, mediated by these two sacred energy systems. Sound, then, will be used as a carrier wave for the Tone

that creates light, and from light all of creation. We will explore this creative process together, creating a musical gateway to the ascending path of the life-spirit consciousness emerging in human experience. Heralded by many today as a “fifth world order,” this consciousness is revealing itself as a level of being, where the Spirit of Life shines forth in all of its radiance and splendor.

You are invited, as a healer who loves to be about the work of creating with other awakened ones, to explore and collaborate in the work of raising the vibratory level of the human capacity, where it can accommodate the high-intensity vibration of our divinity while remaining grounded in the Earth. This is a crucial time of global awakening and emergence. Let us take up our tools of divine technology and together expand our healing service through Attunement with Sacred Sound.
